

Roma, 18 September 2025

Dear Members of the UEMS Division of Transplant Surgery Board,

I am honored to submit my candidature for the Executive Board of the UEMS Division of Transplant Surgery.

Over the past years, I have actively collaborated with the Division through contributions to the Preparatory Course and Examination, as well as by serving as ESOT Education Committee Chair and liaison with the Division. These experiences have reinforced my deep appreciation of the Division's high standards and its collaborative spirit.

My vision is to further enhance the Division's impact by expanding the reach and quality of its educational activities, ensuring that the Preparatory Course and Examination continue to set the highest standards of excellence. I believe we can develop even stronger synergies with national training programs and other European societies, while also creating more opportunities for young surgeons to actively engage with our initiatives. Above all, I am committed to fostering the collaborative and professional atmosphere that makes our Division unique.

While I am available to serve in any of the open roles, I would be especially motivated to contribute as Executive Board Member responsible for the Preparatory Course, in continuity with my recent activities and in view of the proposal to host the 2027 edition in Rome.

Sincerely,

Luca Toti, FEBS
